By -

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 246 pages. Original publisher: Washington, D. C. : The Office : For sale by the Supt. of Docs. , U. S. G. P. O , 1995. LC Number: HD9006 . A775 1995 OCLC Number: (OCoLC)32583771 Subject: Agriculture -- Environmental aspects. Excerpt: . . . 8 | Agriculture, Trade, and Environment Agriculture is the primary source of pollutants to impaired: Rivers and streams States assessed only portions of rivers, lakes, and coastal estuaries in 1992. In 32 states, agricultural pollutants were the main source of pollution in surface waters that were unable to support their intended uses. Impaired estuaries in Oregon, California, Florida, Delaware, and Connecticut were predominantly effected by agricultural pollutants. Because four states did not report sources of pollution to rivers and lakes (Tennessee, New Jersey, Idaho, and Georgia), and six states did not report sources of pollution to lakes, ponds and reservoirs (Minnesota, Wisconsin, Tennessee, Pennsylvania, Vermont, and Alaska), this map may underestimate agriculture's role in those states. NOTE: Data for Alaska and Hawaii is not available. States shaded white did not report agriculture as a source of pollution to impaired...

Reviews

A fresh e-book with a brand new perspective. This is certainly for anyone who states that there had not been a really worth reading. I am just happy to explain how this is the very best publication I have gone through in my individual lifestyle and may be the best pdf for ever.
