Brand New Book ***** Print on Demand *****.There are many more things to be said about blood pressure in general and also about low blood pressure, but those are more complex problems and more details are to be found in medicine books and other specialty publications. We will further underline again what we thought it would be more useful and important for non-medical readers. Which are the risks and complications of low blood pressure? Anyone can suffer from hypotension at a certain time of their lives. There are many different types of low blood pressure and they depend on factors like age and health status. Decreased blood pressure values are usually found on patients above 65 years. Postural hypotension occurs when standing up, while post-prandial hypotension appears after eating because the blood is directed to the digestive system. Young adults and children most often suffer from neurally mediated hypotension, which is caused by bad signals to and from the Central Nervous System. Some types of medication can also cause low blood pressure because of their effect in the blood flow and on the...
