RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 82 pages. Original publisher: Washington, D. C. : U. S. Government Accountability Office, 2006 OCLC Number: (OCoLC)71201035 Subject: Internet -- Government policy -- United States. Excerpt: . . . ( Continued From Previous Page ) Sector Description Public health and Mitigates the risk of disasters and attacks and also provides recovery assistance if an attack occurs. This healthcare sector consists of health departments, clinics, and hospitals. Telecommunications Provides wired, wireless, and satellite communications to meet the needs of businesses and governments. Transportation Enables movement of people and assets that are vital to our economy, mobility, and security, using aviation, ships, rail, pipelines, highways, trucks, buses, and mass transit. Sources: Homeland Security Presidential Directive 7 and the National Strategy for Homeland Security. In its plan for protecting these critical infrastructures, DHS recognizes that the Internet is a key resource composed of assets within both the 9 information technology and the telecommunications sectors. It notes that the Internet is used by all sectors to varying degrees, and that it provides information and communications to meet the needs of businesses, government, and the other critical infrastructure sectors. Similarly, the national cyberspace...

### Reviews

*Very useful for all group of people. It is amongst the most incredible pdf i actually have read through. Its been written in an extremely straightforward way and it is just right after i finished reading through this pdf by which basically modified me, change the way i think.*

-- **Felicia Nikolaus**

*These sorts of ebook is the ideal book offered. It can be written in simple terms rather than confusing. I discovered this pdf from my dad and i advised this publication to understand.*

-- **Mr. Alejandrin Murphy PhD**
